

3P Sinus Filter

Item #1000200

Description

Ideal for retrofitting of existing tanks, because the 3P Sinus Filter has no height difference between rainwater inlet and outlet to the wastewater sewer.

Rainwater filter for installation in rainwater tanks. Two step cleaning system. The first is a coarse mesh filter that protects the second, by removing larger leaves and particles. The Second step filter has a finer mesh to remove small particles.

The 3P Sinus Filter is ideally suited for use in conjunction with a 3P Overflow Siphon Duo and the 3P Calmed Inlet.

Low maintenance, depending on the contamination.

Housing material: Food Quality Polyethylene

For roof areas up to 2293 sqft.

All connections 4 inch.

Height difference of 0 mm between rainwater inlet and wastewater outlet.

Material filter cartridge: Stainless steel 1.4301

Material Poly Net: Food Quality Polyethylene
Mesh Size: .07 x 1.7 mm

Weight: 14.33 lbs.

Dimensions In Inches: H18.38 W13.78 D13.78
